

# Everyone Gets Burned By Wildfires

People cause 40% of B.C.'s forest fires and occasionally get burned as a result. But forest fires also burn habitat for animals, burn down homes, businesses and other structures and burn through taxpayers' money to fight them. Let's take responsibility to care for our *Super, Natural*® environment.

Help us protect British Columbia's forests by respecting fire bans, properly extinguishing allowable campfires and responsibly disposing of all smoking materials.

Report Wildfires - Call \*5555 or 1-800-663-5555
